

## New Grocery Store Opens

A new grocery store, **Grocerymart**, has opened in the town of *Weedsport*. It's the first one ever opened there.

Weedsport is a small place, and some of the residents are worried about an increase of traffic because of the store. *Susan Grelane* told the reporter that she "likes the town because of how quiet it is."

She moved away from **The City** because of how constantly busy it was, and doesn't "want to have to leave Weedsport, too."

We're planning on doing a survey to see how people feel about the new grocery, so please mail us, telling us how *you* feel about the new Grocerymart.
